Cyclophilin A (CYPA) ELISA Kit for Human

PRODUCT OVERVIEW

Product Name	Cyclophilin A (CYPA), ELISA Kit
Full Product Name	Human Cyclophilin A ELISA Kit
Product Gene Name	CYPA elisa kit
Species Reactivity	Human
Assay Type	Competitive or Sandwich
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Detection Range	5-100ug/mL
Sensitivity	1.0ug/mL
Preparation and Storage	Store all reagents at 2-8 degree C.
Molecular Weight	47,342 Da
Sample Preparation	We suggest pre-experimenting with neat (undiluted) samples, 1:2 or 1:4 dilutions. Please avoid diluting your samples more than 1:10 as it would exceed the dilution limit set for this kit. If the expected concentration of the target is beyond the detection range of the kit, please contact our technical support team
Highest Standards	100ug/mL
Concentration of Standards	Concentration of Standards||0,5,10,25,50,100ug/mL
Product Categories/Family for CYPA elisa kit	Immunology
ISO Certification	Manufactured in an ISO 13485:2016 Certified Laboratory.
Related Product Information for CYPA elisa kit	MBS730601 is a ready-to-use microwell, strip plate ELISA (enzyme-linked immunosorbent assay) Kit for analyzing the presence of the Cyclophilin A (CYPA) ELISA Kit target analytes in biological samples. The concentration gradients of the kit standards or positive controls render a theoretical kit detection range in biological research samples containing CYPA. The ELISA analytical biochemical technique of the MBS730601 kit is based on CYPA antibody-CYPA antigen interactions (immunosorbency) and an HRP colorimetric detection system to detect CYPA antigen targets in samples. The ELISA Kit is designed to detect native, not recombinant, CYPA. Appropriate sample types may include undiluted body fluids and/or tissue homogenates, secretions. Quality control assays assessing reproducibility identified the intra-assay CV (%) and inter-assay CV(%).
Other Notes	Small volumes of CYPA elisa kit vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

Typical Testing Data/Standard Curve (for reference only) of CYPA elisa kit

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for CYPA. It may not necessarily be applicable to this product.

NCBI GI #	52349059
NCBI Accession #	AAU41693.1
UniProt Secondary Accession #	Q62SD2
NCBI Official Full Name	cytochrome P450-like enzyme CypA
UniProt Protein Name	Cytochrome P450-like enzyme
UniProt Synonym Protein Names	Cytochrome P450-like enzyme; Cytochrome P450-like enzyme CypA
Protein Family	Cypemycin
UniProt Gene Name	cypA
UniProt Synonym Gene Names	BL02429; BLi02822
UniProt Entry Name	Q65GX1_BACLD
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
