SLC30A4 Antibody

PRODUCT OVERVIEW

Product Name	SLC30A4, Antibody
Full Product Name	SLC30A4 Antibody
Product Gene Name	anti-SLC30A4 antibody
Product Synonym Names	solute carrier family 30 (zinc transporter); member 4; ZNT4
Species Reactivity	Human, Mouse, Rat
Form/Format	In phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.
Purity/Purification	Immunogen affinity purified
Specificity	SLC30A4 Antibody detects endogenous levels of total SLC30A4
Preparation and Storage	Store at-20 degree C for 1 year
Molecular Weight	47 KD
OMIM	602095
3D Structure	ModBase 3D Structure for O14863
Immunogen	A synthesized peptide
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for anti-SLC30A4 antibody	Western Blot (WB), Immunohistochemistry (IHC)
Application Notes for anti-SLC30A4 antibody	WB: 1:500~1:1000 IHC: 1:50~1:200
Related Product Information for anti-SLC30A4 antibody	MBS8515337 is an antibody targeting SLC30A4. Also known as SLC30A4 Antibody. Reactive in Human, Mouse, Rat.
Other Notes	Small volumes of anti-SLC30A4 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for SLC30A4. It may not necessarily be applicable to this product.

NCBI GI #	21359890
NCBI GeneID	7782
NCBI Accession #	NP_037441.2
UniProt Primary Accession #	O14863
UniProt Secondary Accession #	Q8TC39
UniProt Related Accession #	O14863
GenBank Nucleotide #	NM_013309.5
NCBI Official Full Name	zinc transporter 4 isoform 1

NCBI Official Synonym Full Names	solute carrier family 30 member 4
NCBI Official Symbol	SLC30A4
NCBI Official Synonym Symbols	ZNT4; znT-4
UniProt Protein Name	Zinc transporter 4
UniProt Synonym Protein Names	Solute carrier family 30 member 4
Protein Family	Zinc transporter
UniProt Gene Name	SLC30A4
UniProt Synonym Gene Names	ZNT4; ZnT-4
NCBI Protein Information	zinc transporter 4
NCBI Summary for SLC30A4	Zinc is the second most abundant trace metal in the human body. It is an essential element, serving both a structural role, as in the formation of zinc fingers in DNA-binding proteins, and a catalytic role in metalloenzymes, such as pancreatic carboxypeptidases (e.g., MIM 114852), alkaline phosphatases (e.g., MIM 171760), various dehydrogenases, and superoxide dismutases (e.g., MIM 147450). SLC30A4, or ZNT4, belongs to the ZNT family of zinc transporters. ZNTs are involved in transporting zinc out of the cytoplasm and have similar structures, consisting of 6 transmembrane domains and a histidine-rich cytoplasmic loop (Huang and Gitschier, 1997 [PubMed 9354792]).[supplied by OMIM, Mar 2008]
UniProt Comments for SLC30A4	Probably involved in zinc transport out of the cytoplasm, maybe by sequestration into an intracellular compartment.
Research Articles on SLC30A4	**1.** There was a significant increase in protein levels of ZnT4 in the prefrontal cortex in Major depression disorder, relative to control subjects.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
