IL-6Ralpha Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	IL-6Ralpha, Polyclonal Antibody
Full Product Name	IL-6Ralpha Rabbit pAb
Product Gene Name	anti-IL-6Ralpha antibody
Product Synonym Names	IL6R; Interleukin-6 receptor subunit alpha; IL-6 receptor subunit alpha; IL-6R subunit alpha; IL-6R-alpha; IL-6RA; IL-6R 1; Membrane glycoprotein 80; gp80; CD126; IL6R
Clonality	Polyclonal
Host	Rabbit
Species Reactivity	Human
Form/Format	Liquid in PBS containing 50% Glycerol, 0.5% BSA and 0.02% Sodium Azide.
Purity/Purification	Affinity Purified
Preparation and Storage	Store at -20 degree C for 1 year.
OMIM	147880
3D Structure	ModBase 3D Structure for P08887
Immunogen	Synthesized peptide derived from IL-6Ralpha. at AA range: INTERNAL
Cellular Localization	Cell Membrane, Membrane, Secreted
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for anti-IL-6Ralpha antibody	Western Blot (WB), ELISA (EIA)
Application Notes for anti-IL-6Ralpha antibody	WB: 1:500-1:2000 ELISA: 1:10000
Related Product Information for anti-IL-6Ralpha antibody	MBS8540915 is an antibody targeting IL-6Ralpha. Also known as IL-6Ralpha Rabbit pAb. Reactive in Human. Host: Rabbit.
Other Notes	Small volumes of anti-IL-6Ralpha antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for IL-6Ralpha. It may not necessarily be applicable to this product.

NCBI GI #	633863
NCBI GeneID	3570
NCBI Accession #	AAC60635.1
UniProt Primary Accession #	P08887
UniProt Related Accession #	P08887
NCBI Official Full Name	Soluble interleukin-6 receptor, partial

NCBI Official Synonym Full Names	interleukin 6 receptor
NCBI Official Symbol	IL6R
NCBI Official Synonym Symbols	IL6Q; gp80; CD126; IL6RA; IL6RQ; IL-6RA; IL-6R-1
UniProt Protein Name	Interleukin-6 receptor subunit alpha
UniProt Synonym Protein Names	IL-6R 1; Membrane glycoprotein 80
UniProt Gene Name	IL6R
UniProt Synonym Gene Names	IL-6 receptor subunit alpha; IL-6R subunit alpha; IL-6R-alpha; IL-6RA; gp80
UniProt Entry Name	IL6RA_HUMAN
NCBI Protein Information	interleukin-6 receptor subunit alpha
NCBI Summary for IL-6Ralpha	This gene encodes a subunit of the interleukin 6 (IL6) receptor complex. Interleukin 6 is a potent pleiotropic cytokine that regulates cell growth and differentiation and plays an important role in the immune response. The IL6 receptor is a protein complex consisting of this protein and interleukin 6 signal transducer (IL6ST/GP130/IL6-beta), a receptor subunit also shared by many other cytokines. Dysregulated production of IL6 and this receptor are implicated in the pathogenesis of many diseases, such as multiple myeloma, autoimmune diseases and prostate cancer. Alternatively spliced transcript variants encoding distinct isoforms have been reported. A pseudogene of this gene is found on chromosome 9.[provided by RefSeq, May 2011]
UniProt Comments for IL-6Ralpha	IL6R: Part of the receptor for interleukin 6. Binds to IL6 with low affinity, but does not transduce a signal. Signal activation necessitate an association with IL6ST. Activation may lead to the regulation of the immune response, acute-phase reactions and hematopoiesis. Belongs to the type I cytokine receptor family. Type 3 subfamily. 2 isoforms of the human protein are produced by alternative splicing. Protein type: Receptor, cytokine; Membrane protein, integral Chromosomal Location of Human Ortholog: 1q21 Cellular Component: extracellular space; basolateral plasma membrane; apical plasma membrane; extracellular region; plasma membrane; interleukin-6 receptor complex Molecular Function: protein binding; interleukin-6 binding; protein homodimerization activity; enzyme binding; interleukin-6 receptor binding; ciliary neurotrophic factor receptor activity; interleukin-6 receptor activity Biological Process: positive regulation of smooth muscle cell proliferation; negative regulation of collagen biosynthetic process; cytokine and chemokine mediated signaling pathway; neutrophil mediated immunity; positive regulation of interleukin-6 production; positive regulation of leukocyte chemotaxis; defense response to Gram-negative bacterium; endocrine pancreas development; positive regulation of chemokine production; activation of NF-kappaB transcription factor; positive regulation of tyrosine phosphorylation of Stat3 protein; monocyte chemotaxis; positive regulation of osteoblast differentiation; positive regulation of peptidyl-tyrosine phosphorylation; defense response to Gram-positive bacterium; positive regulation of MAPKKK cascade; response to cytokine stimulus; positive regulation of cell proliferation; acute-phase response; negative regulation of interleukin-8 production; hepatic immune response Disease: Interleukin 6, Serum Level Of, Quantitative Trait Locus; Soluble Interleukin-6 Receptor, Serum Level Of, Quantitative Trait Locus
Research Articles on IL-6Ralpha	**1.** Elevated plasma interleukin 6 receptor is associated with poor response to sunitinib in metastatic clear cell renal cell carcinoma.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.

Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
