BBS10 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	BBS10, Polyclonal Antibody
Full Product Name	BBS10 (C-Term) Rabbit pAb
Product Gene Name	anti-BBS10 antibody
Product Synonym Names	Bardet-Biedl syndrome 10 protein; BBS10; C12orf58
Clonality	Polyclonal
Isotype	Ig
Clone Number	RB24715
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied in PBS with 0.09% (W/V) Sodium Azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Purity/Purification	Affinity Purified
OMIM	610148
3D Structure	ModBase 3D Structure for Q8TAM1
Immunogen	This BBS10 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 515-544 amino acids from the C-terminal region of human BBS10.
Cellular Localization	Cell Projection
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for anti-BBS10 antibody	Western Blot (WB), Flow Cytometry (FC/FACS)
Application Notes for anti-BBS10 antibody	WB: 1:1000 FC/FACS: 1:10-50
Related Product Information for anti-BBS10 antibody	MBS8554362 is an antibody targeting BBS10. Also known as BBS10 (C-Term) Rabbit pAb. Reactive in Human. Host: Rabbit.
Other Notes	Small volumes of anti-BBS10 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for BBS10. It may not necessarily be applicable to this product.

NCBI GI #	100816407
NCBI GeneID	79738
NCBI Accession #	NP_078961
UniProt Primary Accession #	Q8TAM1
UniProt Related Accession #	Q8TAM1

GenBank Nucleotide #	NP_078961.3
NCBI Official Full Name	Bardet-Biedl syndrome 10 protein
NCBI Official Synonym Full Names	Bardet-Biedl syndrome 10
NCBI Official Symbol	BBS10
NCBI Official Synonym Symbols	C12orf58
UniProt Protein Name	Bardet-Biedl syndrome 10 protein
Protein Family	Bardet-Biedl syndrome 10 protein
UniProt Gene Name	BBS10
UniProt Synonym Gene Names	C12orf58
UniProt Entry Name	BBS10_HUMAN
NCBI Protein Information	Bardet-Biedl syndrome 10 protein
NCBI Summary for BBS10	This gene is a member of the Bardet-Biedl syndrome (BBS) gene family. Bardet-Biedl syndrome is an autosomal recessive disorder characterized by progressive retinal degeneration, obesity, polydactyly, renal malformation and cognitive disability. The proteins encoded by BBS gene family members are structurally diverse and the similar phenotypes exhibited by mutations in BBS gene family members is likely due to their shared roles in cilia formation and function. Many BBS proteins localize to the basal bodies, ciliary axonemes, and pericentriolar regions of cells. BBS proteins may also be involved in intracellular trafficking via microtubule-related transport. The protein encoded by this gene is likely not a ciliary protein but rather has distant sequence homology to type II chaperonins. As a molecular chaperone, this protein may affect the folding or stability of other ciliary or basal body proteins. Inhibition of this protein's expression impairs ciliogenesis in preadipocytes. Mutations in this gene cause Bardet-Biedl syndrome type 10. [provided by RefSeq, Jan 2010]
Research Articles on BBS10	**1.** A consanguineous patient with Bardet Biedl syndrome was found to be homozygous for the variant of BBS10: NM_024685.3, c.39_46delGGCGTTGC, p.Ala14GlyfsTer79 (A14Gfs*79). Several other members of the pedigree had obesity or other features associated with this syndrome.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
