CCAR1 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	CCAR1, Polyclonal Antibody
Full Product Name	CCAR1 Polyclonal Antibody
Product Gene Name	anti-CCAR1 antibody
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	PBS with 0.02% sodium azide, 50% glycerol, pH 7.3.
Purity/Purification	Affinity Purification
Preparation and Storage	Store at -20 degree C. Avoid freeze/thaw cycles.
Molecular Weight	131kDa; 132kDa
OMIM	612569
3D Structure	ModBase 3D Structure for Q8IX12
Immunogen	Recombinant protein of human CCAR1 (NP_060707.2).
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for anti-CCAR1 antibody	Western Blot (WB), Immunofluorescence (IF), Immunoprecipitation (IP)
Application Notes for anti-CCAR1 antibody	WB: 1:500-1:2000 IF: 1:50-1:200 IP: 1:50-1:100
Related Product Information for anti-CCAR1 antibody	MBS8568311 is an antibody targeting CCAR1. Also known as CCAR1 Polyclonal Antibody. Reactive in Human. Host: Rabbit.
Other Notes	Small volumes of anti-CCAR1 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for CCAR1. It may not necessarily be applicable to this product.

NCBI GI #	545479138
NCBI GeneID	55749
NCBI Accession #	NP_001269888.1
UniProt Primary Accession #	Q8IX12
UniProt Related Accession #	Q8IX12
GenBank Nucleotide #	NP_001269888.1

NCBI Official Full Name	cell division cycle and apoptosis regulator protein 1 isoform b
NCBI Official Synonym Full Names	cell division cycle and apoptosis regulator 1
NCBI Official Symbol	CCAR1
UniProt Protein Name	Cell division cycle and apoptosis regulator protein 1
UniProt Synonym Protein Names	Cell cycle and apoptosis regulatory protein 1; CARP-1; Death inducer with SAP domain
Protein Family	Cell division cycle and apoptosis regulator protein
UniProt Gene Name	CCAR1
UniProt Synonym Gene Names	CARP1; DIS; CARP-1
UniProt Entry Name	CCAR1_HUMAN
NCBI Protein Information	cell division cycle and apoptosis regulator protein 1
UniProt Comments for CCAR1	CCAR1: Associates with components of the Mediator and p160 coactivator complexes that play a role as intermediaries transducing regulatory signals from upstream transcriptional activator proteins to basal transcription machinery at the core promoter. Recruited to endogenous nuclear receptor target genes in response to the appropriate hormone. Also functions as a p53 coactivator. May thus play an important role in transcriptional regulation. May be involved in apoptosis signaling in the presence of the reinoid CD437. Apoptosis induction involves sequestration of 14-3-3 protein(s) and mediated altered expression of multiple cell cycle regulatory genes including MYC, CCNB1 and CDKN1A. Plays a role in cell cycle progression and/or cell proliferation. 2 isoforms of the human protein are produced by alternative splicing. Protein type: Nuclear receptor co-regulator; RNA splicing; Apoptosis Chromosomal Location of Human Ortholog: 10q21.3 Cellular Component: nucleoplasm; perinuclear region of cytoplasm Molecular Function: protein binding; ligand-dependent nuclear receptor transcription coactivator activity Biological Process: nuclear mRNA splicing, via spliceosome; transcription, DNA-dependent; regulation of transcription, DNA-dependent; apoptosis; RNA splicing; gene expression; cell cycle
Research Articles on CCAR1	**1.** CCAR1 to be a novel transcriptional cofactor for CAR.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
