CDH15 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	CDH15, Polyclonal Antibody
Full Product Name	CDH15 Polyclonal Antibody
Product Gene Name	anti-CDH15 antibody
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	PBS with 0.02% sodium azide, 50% glycerol, pH 7.3.
Purity/Purification	Affinity Purification
Preparation and Storage	Store at -20 degree C. Avoid freeze/thaw cycles.
Molecular Weight	88kDa
OMIM	114019
3D Structure	ModBase 3D Structure for P55291
Immunogen	A synthetic peptide of human CDH15 (NP_004924.1).
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for anti-CDH15 antibody	Western Blot (WB)
Application Notes for anti-CDH15 antibody	WB: 1:500-1:2000
Related Product Information for anti-CDH15 antibody	This gene is a member of the cadherin superfamily of genes, encoding calcium-dependent intercellular adhesion glycoproteins. Cadherins consist of an extracellular domain containing 5 cadherin domains, a transmembrane region, and a conserved cytoplasmic domain. Transcripts from this particular cadherin are expressed in myoblasts and upregulated in myotubule-forming cells. The protein is thought to be essential for the control of morphogenetic processes, specifically myogenesis, and may provide a trigger for terminal muscle cell differentiation.
Other Notes	Small volumes of anti-CDH15 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for CDH15 purchase	MBS8568503 is an antibody targeting CDH15. Also known as CDH15 Polyclonal Antibody. Reactive in Human. Host: Rabbit.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for CDH15. It may not necessarily be applicable to this product.

NCBI GI #	4826669
NCBI GeneID	1013
NCBI Accession #	NP_004924.1
UniProt Primary Accession #	P55291

UniProt Related Accession #	P55291
GenBank Nucleotide #	NP_004924.1
NCBI Official Full Name	cadherin-15 preproprotein
NCBI Official Synonym Full Names	cadherin 15
NCBI Official Symbol	CDH15
NCBI Official Synonym Symbols	CDH3; CDHM; MCAD; MRD3; CDH14
UniProt Protein Name	Cadherin-15
UniProt Synonym Protein Names	Cadherin-14; Muscle cadherin
Protein Family	Cadherin
UniProt Gene Name	CDH15
UniProt Synonym Gene Names	CDH14; CDH3; M-cadherin
UniProt Entry Name	CAD15_HUMAN
NCBI Protein Information	cadherin-15
UniProt Comments for CDH15	CDH15: Cadherins are calcium-dependent cell adhesion proteins. They preferentially interact with themselves in a homophilic manner in connecting cells; cadherins may thus contribute to the sorting of heterogeneous cell types. M-cadherin is part of the myogenic program and may provide a trigger for terminal muscle differentiation. A chromosomal aberration involving CDH15 and KIRREL3 is found in a patient with severe mental retardation and dysmorphic facial features. Translocation t(11;16)(q24.2;q24). Defects in CDH15 are the cause of mental retardation autosomal dominant type 3 (MRD3). Mental retardation is characterized by significantly sub-average general intellectual functioning associated with impairments in adaptative behavior and manifested during the developmental period. Protein type: Membrane protein, integral Chromosomal Location of Human Ortholog: 16q24.3 Cellular Component: integral to membrane; plasma membrane; caveola; neuromuscular junction Molecular Function: calcium ion binding Biological Process: intercellular junction assembly and maintenance; muscle cell differentiation; positive regulation of muscle cell differentiation; homophilic cell adhesion; cell adhesion Disease: Mental Retardation, Autosomal Dominant 3

Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
