ULK3 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	ULK3, Polyclonal Antibody
Full Product Name	ULK3 Antibody
Product Gene Name	anti-ULK3 antibody
Product Synonym Names	Serine/threonine-protein kinase ULK3; Unc-51-like kinase 3
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human, Mouse, Rat
Form/Format	Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH7.3, 30% glycerol, and 0.01% sodium azide.
Purity/Purification	The antibody was purified by immunogen affinity chromatography.
Specificity	Recognizes endogenous levels of ULK3 protein.
Preparation and Storage	Shipped at 4 degree C. Upon delivery aliquot and store at -20 degree C for one year. Avoid freeze/thaw cycles.
Molecular Weight	53,444 Da
Chromosome Location	Chromosome: 15; NC_000015.9 (75128459..75135552, complement). Location: 15q24.1
OMIM	613472
3D Structure	ModBase 3D Structure for Q6PHR2
Immunogen	KLH-conjugated synthetic peptide encompassing a sequence within the center region of human ULK3. The exact sequence is proprietary.
Product Categories/Family for anti-ULK3 antibody	Primary Antibody
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for anti-ULK3 antibody	Western Blot (WB), Immunohistochemistry (IHC)
Application Notes for anti-ULK3 antibody	WB: 1:500-1:1000 IHC: 1:50-1:200
Related Product Information for anti-ULK3 antibody	MBS8582579 is an antibody targeting ULK3. Also known as ULK3 Antibody. Reactive in Human, Mouse, Rat. Host: Rabbit. Rabbit polyclonal antibody to ULK3
Other Notes	Small volumes of anti-ULK3 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for ULK3. It may not necessarily be applicable to this product.

NCBI GI #	150456432
NCBI GeneID	25989

NCBI Accession #	NP_001092906.1
UniProt Primary Accession #	Q6PHR2
UniProt Secondary Accession #	Q9NPN5; Q9UFS4; B2RXK3; B4DRQ7; D3DW68
UniProt Related Accession #	Q6PHR2
GenBank Nucleotide #	NM_001099436.1
NCBI Official Full Name	serine/threonine-protein kinase ULK3
NCBI Official Synonym Full Names	unc-51-like kinase 3 (C. elegans)
NCBI Official Symbol	ULK3
UniProt Protein Name	Serine/threonine-protein kinase ULK3
UniProt Synonym Protein Names	Unc-51-like kinase 3
Protein Family	Serine/threonine-protein kinase
UniProt Gene Name	ULK3
UniProt Entry Name	ULK3_HUMAN
NCBI Protein Information	serine/threonine-protein kinase ULK3
UniProt Comments for ULK3	ULK3: Serine/threonine protein kinase that acts as a regulator of Sonic hedgehog (SHH) signaling and autophagy. Acts as a negative regulator of SHH signaling in the absence of SHH ligand: interacts with SUFU, thereby inactivating the protein kinase activity and preventing phosphorylation of GLI proteins (GLI1, GLI2 and/or GLI3). Positively regulates SHH signaling in the presence of SHH: dissociates from SUFU, autophosphorylates and mediates phosphorylation of GLI2, activating it and promoting its nuclear translocation. Phosphorylates in vitro GLI2, as well as GLI1 and GLI3, although less efficiently. Also acts as a regulator of autophagy: following cellular senescence, able to induce autophagy. Belongs to the protein kinase superfamily. Ser/Thr protein kinase family. APG1/unc-51/ULK1 subfamily. 3 isoforms of the human protein are produced by alternative splicing. Protein type: EC 2.7.11.1; Protein kinase, Ser/Thr (non-receptor); Protein kinase, Other; Kinase, protein; Other group; ULK family Chromosomal Location of Human Ortholog: 15q24.1 Cellular Component: membrane; cytoplasm; cytosol Molecular Function: protein serine/threonine kinase activity; protein binding; ATP binding Biological Process: negative regulation of smoothened signaling pathway; protein amino acid autophosphorylation; positive regulation of smoothened signaling pathway; autophagy; regulation of autophagy; autophagic vacuole formation

Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
