PTPRN Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	PTPRN, Polyclonal Antibody
Full Product Name	PTPRN Antibody (Center)
Product Gene Name	anti-PTPRN antibody
Product Synonym Names	Receptor-type tyrosine-protein phosphatase-like N; R-PTP-N; Islet cell antigen 512; ICA 512; Islet cell autoantigen 3; PTP IA-2; PTPRN; ICA3; ICA512
Clonality	Polyclonal
Isotype	Rabbit Ig
Host	Rabbit
Species Reactivity	Human
Form/Format	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Purity/Purification	Peptide Affinity Purified Rabbit Polyclonal Antibody (Pab)
Concentration	Vial Concentration: 0.5 (lot specific)
Specificity	This PTPRN antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 288-316 amino acids from the Central region of human PTPRN.
Preparation and Storage	Maintain refrigerated at 2-8 degree C for up to 6 months. For long term storage store at -20 degree C in small aliquots to prevent freeze-thaw cycles.
Antibody/Peptide Pairs	PTPRN peptide (MBS9220858) is used for blocking the activity of PTPRN antibody (MBS9206817)
Molecular Weight	105848
Immunogen Sequence Positions	288-316
OMIM	601773
3D Structure	ModBase 3D Structure for Q16849
Antigen Type	Synthetic Peptide
Antigen Source	HUMAN
Product Categories/Family for anti-PTPRN antibody	Metabolism; Neuroscience; Signal Transduction
Applications Tested/Suitable for anti-PTPRN antibody	Western Blot (WB), ELISA (EIA)
Application Notes for anti-PTPRN antibody	WB~~1:1000

Related Product Information for anti-PTPRN antibody	The protein encoded by this gene is a member of the protein tyrosine phosphatase (PTP) family. PTPs are known to be signaling molecules that regulate a variety of cellular processes including cell growth, differentiation, mitotic cycle, and oncogenic transformation. This PTP possesses an extracellular region, a single transmembrane region, and a single catalytic domain, and thus represents a receptor-type PTP. This PTP was found to be an autoantigen that is reactive with insulin-dependent diabetes mellitus (IDDM) patient sera, and thus may be a potential target of autoimmunity in diabetes mellitus.
Product References and Citations for anti-PTPRN antibody	Yu, L., et al. J. Immunol. Methods 353 (1-2), 20-23 (2010) : Honeyman, M.C., et al. J. Immunol. 184(4):2204-2210(2010) Weenink, S.M., et al. J. Autoimmun. 33(2):147-154(2009) Burbelo, P.D., et al. Diabetes Care 31(9):1824-1826(2008) Williams, A.J., et al. Diabetologia 51(8):1444-1448(2008)
Other Notes	Small volumes of anti-PTPRN antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for PTPRN purchase	MBS9206817 is an antibody targeting PTPRN. Also known as PTPRN Antibody (Center). Reactive in Human. Host: Rabbit.

PTPRN Antibody (Center) western blot analysis in Jurkat cell line lysates (35ug/lane).This demonstrates the PTPRN antibody detected the PTPRN protein (arrow).

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for PTPRN. It may not necessarily be applicable to this product.

NCBI GI #	315113878
NCBI GeneID	5798
NCBI Accession #	NP_001186692.1
NCBI Related Accession #	NP_001186693.1; NP_002837.1
UniProt Primary Accession #	Q16849
UniProt Secondary Accession #	Q08319; Q53QD6; Q6NSL1; B4DK12; F5GZS3
UniProt Related Accession #	Q16849
GenBank Nucleotide #	NM_001199763.1
NCBI Official Full Name	receptor-type tyrosine-protein phosphatase-like N isoform 2
NCBI Official Synonym Full Names	protein tyrosine phosphatase, receptor type, N

NCBI Official Symbol	PTPRN
NCBI Official Synonym Symbols	IA2; IA-2; ICA512; R-PTP-N; IA-2/PTP
UniProt Protein Name	Receptor-type tyrosine-protein phosphatase-like N
UniProt Synonym Protein Names	Islet cell antigen 512; ICA 512; Islet cell autoantigen 3; PTP IA-2
Protein Family	Receptor-type tyrosine-protein phosphatase
UniProt Gene Name	PTPRN
UniProt Synonym Gene Names	ICA3; ICA512; R-PTP-N; ICA 512
UniProt Entry Name	PTPRN_HUMAN
NCBI Protein Information	receptor-type tyrosine-protein phosphatase-like N
NCBI Summary for PTPRN	The protein encoded by this gene is a member of the protein tyrosine phosphatase (PTP) family. PTPs are known to be signaling molecules that regulate a variety of cellular processes including cell growth, differentiation, mitotic cycle, and oncogenic transformation. This PTP possesses an extracellular region, a single transmembrane region, and a single catalytic domain, and thus represents a receptor-type PTP. This PTP was found to be an autoantigen that is reactive with insulin-dependent diabetes mellitus (IDDM) patient sera, and thus may be a potential target of autoimmunity in diabetes mellitus. Alternate splicing results in multiple transcript variants.[provided by RefSeq, Dec 2010]
UniProt Comments for PTPRN	PTPRN: Implicated in neuroendocrine secretory processes. May be involved in processes specific for neurosecretory granules, such as their biogenesis, trafficking or regulated exocytosis or may have a general role in neuroendocrine functions. Seems to lack intrinsic enzyme activity. May play a role in the regulation of secretory granules via its interaction with SNTB2. Belongs to the protein-tyrosine phosphatase family. Receptor class 8 subfamily. 2 isoforms of the human protein are produced by alternative splicing. Protein type: Membrane protein, integral; Receptor protein phosphatase, tyrosine; Motility/polarity/chemotaxis Chromosomal Location of Human Ortholog: 2q35-q36.1 Cellular Component: integral to membrane Molecular Function: protein binding; GTPase binding; spectrin binding; protein tyrosine phosphatase activity Biological Process: response to reactive oxygen species; response to cAMP; insulin secretion; response to estrogen stimulus; cytokine and chemokine mediated signaling pathway; response to glucose stimulus; protein amino acid dephosphorylation; response to insulin stimulus
Research Articles on PTPRN	**1.** Humoral responses to islet antigen-2 and zinc transporter 8 are attenuated in patients carrying HLA-A*24 alleles at the onset of type 1 diabetes.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
