MCC Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	MCC, Polyclonal Antibody
Full Product Name	MCC Antibody
Product Gene Name	anti-MCC antibody
Product Synonym Names	Colorectal mutant cancer protein (Protein MCC)
Clonality	Polyclonal
Isotype	Rabbit IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Purity/Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Concentration	1mg/ml (lot specific)
Specificity	This antibody detects endogenous levels of MCC at Human
Preparation and Storage	Store at -20 degree C/1 year
Molecular Weight	113,279 Da
OMIM	159350
3D Structure	ModBase 3D Structure for P23508
Immunogen	Synthesized peptide derived from human MCC
Modification	Unmodified/Total
Product Categories/Family for anti-MCC antibody	Primary Antibodies
Applications Tested/Suitable for anti-MCC antibody	Western Blot (WB)
Application Notes for anti-MCC antibody	WB: 1:500-2000
Related Product Information for anti-MCC antibody	MBS9521999 is an antibody targeting MCC. Also known as MCC Antibody. Reactive in Human. Host: Rabbit.
Other Notes	Small volumes of anti-MCC antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for MCC. It may not necessarily be applicable to this product.

NCBI GI #	317373352
NCBI GeneID	4163

NCBI Accession #	P23508.2
UniProt Primary Accession #	P23508
UniProt Secondary Accession #	Q6ZR04; D3DT05
UniProt Related Accession #	P23508
NCBI Official Full Name	Colorectal mutant cancer protein
NCBI Official Synonym Full Names	mutated in colorectal cancers
NCBI Official Symbol	MCC
NCBI Official Synonym Symbols	MCC1
UniProt Protein Name	Colorectal mutant cancer protein
Protein Family	Colorectal mutant cancer protein
UniProt Gene Name	MCC
UniProt Synonym Gene Names	Protein MCC
UniProt Entry Name	CRCM_HUMAN
NCBI Protein Information	colorectal mutant cancer protein
NCBI Summary for MCC	This gene is a candidate colorectal tumor suppressor gene that is thought to negatively regulate cell cycle progression. The orthologous gene in the mouse expresses a phosphoprotein associated with the plasma membrane and membrane organelles, and overexpression of the mouse protein inhibits entry into S phase. Multiple transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Jul 2008]
UniProt Comments for MCC	MCC: Candidate for the putative colorectal tumor suppressor gene located at 5q21. Suppresses cell proliferation and the Wnt/b- catenin pathway in colorectal cancer cells. Inhibits DNA binding of b-catenin/TCF/LEF transcription factors. Involved in cell migration independently of RAC1, CDC42 and p21-activated kinase (PAK) activation. Belongs to the MCC family. 2 isoforms of the human protein are produced by alternative splicing. Protein type: Tumor suppressor; Cell cycle regulation Chromosomal Location of Human Ortholog: 5q21 Cellular Component: nucleoplasm; lamellipodium; cytoplasm; plasma membrane; nucleus Molecular Function: protein binding; receptor activity Biological Process: Wnt receptor signaling pathway; signal transduction; negative regulation of epithelial cell proliferation
Research Articles on MCC	**1.** targeted by miR-494, which is overexpressed in hepatocellular carcinoma
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
