# Pancreatic-Derived Factor/Fam3b (PANDER) ELISA Kit for Pigeon

## PRODUCT OVERVIEW

| | |
|---|---|
| **Product Name** | Pancreatic-Derived Factor/Fam3B Antibody (PANDER), ELISA Kit |
| **Full Product Name** | Pigeon Pancreatic-Derived Factor/Fam3B Antibody ELISA Kit |
| **Product Gene Name** | PANDER elisa kit |
| **Species Reactivity** | Pigeon |
| **Preparation and Storage** | Store all reagents at 2-8 degree C |
| **Related Product Information for PANDER elisa kit** | MBS097032 is a ready-to-use microwell, strip-or-full plate ELISA (enzyme-linked immunosorbent assay) Kit for analyzing the presence of the Pancreatic-Derived Factor/Fam3B Antibody (PANDER) ELISA Kit target analytes in biological samples. The concentration gradients of the kit standards or positive controls render a theoretical kit detection range in biological research samples containing PANDER. The ELISA analytical biochemical technique of the MBS097032 kit is based on PANDER antibody-PANDER antigen interactions (immunosorbency) and an HRP colorimetric detection system to detect PANDER antigen targets in samples. The ELISA Kit is designed to detect native, not recombinant, PANDER. Appropriate sample types may include undiluted body fluids and/or tissue homogenates, secretions. Quality control assays assessing reproducibility identified the intra-assay CV (%) and inter-assay CV(%). |
| **Other Notes** | Small volumes of PANDER elisa kit vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply. |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures.
