Soluble Phospholipase A2 (sPLA2) ELISA Kit for Sheep

PRODUCT OVERVIEW

Product Name	Soluble Phospholipase A2 (sPLA2), ELISA Kit
Full Product Name	Sheep Soluble Phospholipase A2 (sPLA2) ELISA Kit
Product Gene Name	sPLA2 elisa kit
Species Reactivity	Sheep
Preparation and Storage	Store all reagents at 2-8 degree C
Related Product Information for sPLA2 elisa kit	MBS9904456 is a ready-to-use microwell, strip plate ELISA (enzyme-linked immunosorbent assay) Kit for analyzing the presence of the Soluble Phospholipase A2 (sPLA2) ELISA Kit target analytes in biological samples. The concentration gradients of the kit standards or positive controls render a theoretical kit detection range in biological research samples containing sPLA2. The ELISA analytical biochemical technique of the MBS9904456 kit is based on sPLA2 antibody-sPLA2 antigen interactions (immunosorbency) and an HRP colorimetric detection system to detect sPLA2 antigen targets in samples. The ELISA Kit is designed to detect native, not recombinant, sPLA2. Appropriate sample types may include undiluted body fluids and/or tissue homogenates, secretions. Quality control assays assessing reproducibility identified the intra-assay CV (%) and inter-assay CV(%).
Other Notes	Small volumes of sPLA2 elisa kit vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
